## Profile

Third-year BTech student who is enthusiastic and committed, has a solid background in computer science, and is prepared to bring passion and useful abilities to an internship opportunity. proficient in Java programming and well-versed in the fundamentals of software development. Excellent communicator with a track record of clearly communicating difficult ideas in English, facilitating efficient teamwork and transparency in project situations. I am enthusiastic to take on a challenging internship position that will enable me to further develop my programming skills and make a significant contribution to actual projects. I have a strong interest in applying theoretical knowledge to real-world situations. I'm eager to take on challenges and learn from seasoned experts in a practical situation since I'm open to learning, adaptable, and motivated by a love for innovation.

## Education
